

Name:

Period:

Date:

Title:

(Titles in science are just what you discovered.)

Hypothesis: If the _____ increases then the _____ will (increase or decrease) because _____.

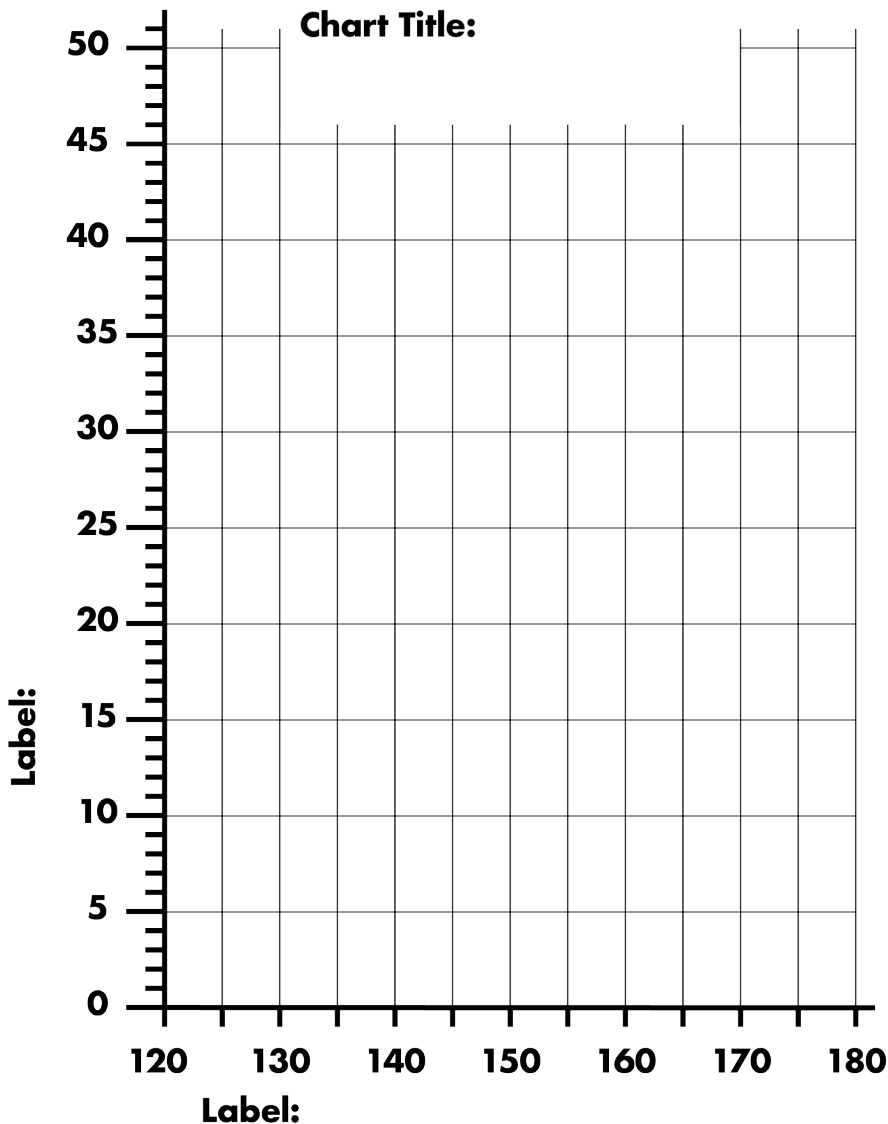

Independent Variable:

Dependent Variable:

Constants:

Table:

	Trial 1	Trial 2	Trial 3	Trial 4	

Analysis:

Explain what trends are in the data.
What's the trendline doing? Is going down?
Up? Going flat? What's that mean?

Predictions:

Use the chart to predict jump for
130cm or 160cm height.
